

A young girl with dark hair in a ponytail, wearing a red polo shirt, is looking upwards with a focused expression. She is standing next to a vertical sensory display consisting of a clear tube filled with many small, white, feather-like or petal-like objects that are suspended in the air. Her hands are positioned near the bottom of the tube, as if she is about to interact with the display. The background is softly blurred, showing hints of other people and a colorful, possibly outdoor or well-lit indoor, environment.
